ABOUT THE PROGRAM

A message from our team

CLIENT

A Word From

"I would highly recommend the WithYouWithMe Academy for Blue Prism RPA training. The course content is relevant and up to date for the current market and a great step towards certification as a Blue Prism developer. The materials and templates supplied are industry ready and cover the solution development from start to finish. The support from the training staff has been outstanding."

REVIEWS

Student Reviews

"WithYouWithMe were able to provide me opportunities and training that I would have not have otherwise not had access to. For breaking into a new field, both for me and the wider digital community, they really paved the way."

Scott Stephens

Client Manager

"What a fantastic experience! Creating my WYWM profile and following the steps was such a simple and straightforward process. The RPA Consultant Course is structured in such a well-considered way that it allowed me (as a busy mum) to complete the training at my own pace, whilst still keeping me engaged in the content. The career mentoring and interview preparation were key components in helping me secure my new job. I am so grateful for the support and guidance provided throughout the course, which made sure that I had answers for questions I had never considered, but definitely needed."

Rhian Keillor

Senior Analyst AI

How Can I Fund This?

We have partnered with Study Loans to reduce the financial barriers for changing jobs and upskilling in new fields. Study Loans is Australia's first dedicated private student loan provider. They offer highly competitive rates, allowing you to borrow all or part of the cost through a responsible funding method. You simply pay-as-you-go with simple terms & conditions. Take a look at their dedicated courses page about us to choose what you want to study with the help of Study Loans funding!
